SKILLS

- ❖ **Salesforce Ecosystem:**
 - **Administration:** Security Model (*OWD, Sharing Rules, Profiles*), Data Modeling (*Schema Builder*), Process Automation (*Flow Builder, Approval Processes*), Reports & Dashboards .
 - **Development:** Apex (*Trigger Handlers, Asynchronous Apex, Unit Testing*), Lightning Web Components (*LWC*), Visualforce, SOQL/SOSL.
- ❖ **Veeva CRM (Theoretical):** Foundational knowledge of Veeva architecture including *Territory Management, Cycle Plans, Call Reporting, My Accounts, and Offline Sync (VMOCs) configuration* .
- ❖ **Web Technologies:** JavaScript (*ES6+*), HTML5, CSS3.
- ❖ **Tools & Platforms:** VS Code, Salesforce CLI (*SFDX*), Git/GitHub, Data Loader, Developer Console.
- ❖ **Languages:** Java, Python, C.

EDUCATION

- ❖ Bachelor of Technology in Computer Science and Engineering CGPA: 8.51
(Sep'21 – Jul'25)
Bengal Institute of Technology, Kolkata
- ❖ XII (WBCHSE) | Halisahar Ramprasad Vidyapith, Halisahar 87% | 2021
- ❖ X (WBBSE) | Halisahar Ramprasad Vidyapith, Halisahar 93% | 2019

EXPERIENCE

- ❖ **Programmer Analyst Trainee** | Cognizant (July 31, 2025 – Present)
 - **Salesforce Ecosystem Training (3 Months):** Completed a rigorous, full-stack training program covering Salesforce Administration (Security Models, Data Management, Flows) and Development (Apex, LWC, Visualforce).
 - **Veeva CRM Specialization:** Acquired foundational proficiency in Veeva CRM configuration through an intensive module, focusing on Territory Management, Call Reporting logic, and Offline (iRep) Synchronization strategies.
 - **Capstone Project Execution:** Applied training concepts to architect the "Smart Healthcare Outreach Platform," designing a secure Experience Cloud portal with custom LWC dashboards and "Logic-Less" Apex triggers.

ACADEMIC PROJECTS

❖ Smart Healthcare Outreach Platform

- **Health Worker Enablement:** Designed a centralized system to streamline patient outreach, allowing health workers to efficiently track immunization schedules, manage visits, and ensure clinical compliance.
- **Patient Visibility:** Deployed a secure Experience Cloud portal as a transparent interface for patients to view their personal health records, appointments, and program progress.
- **Technical Implementation:** Developed custom LWC dashboards, implemented "logic-less" Apex triggers for validation, and created a Visualforce solution for generating downloadable PDF certificates.
- **Technology used:** Salesforce Experience Cloud, LWC, Apex, Visualforce, Flow, SOQL.

❖ Sign Language Translator

- Built a real-time gesture recognition system to facilitate communication for deaf or mute individuals.
- Utilized a webcam to capture hand gestures and return live text subtitles suitable for e-meetings.
- **Technology used:** Python, OpenCV, MediaPipe, Random Forest Classifier, Sklearn.

ACHIEVEMENTS / HOBBIES

- ❖ **Awards:** Secured 3rd Position for Video Making on "NATIONAL ENERGY CONSERVATION DAY" organized by IIC-BIT.
- ❖ **Interests:** Weightlifting, Martial Arts (Karate), Drawing, Guitar (Beginner).
